INVICTA SERIES

Invincible Versatility

Invicta is the ultimate digital cutting machine of the Valiani products. With its unique features and its extreme versatility gives you the ability to make virtually unlimited projects. Invicta guarantees a very high degree of precision matched with a creasing quality almost equal to that of traditional die cutting.

ALL YOU NEED TO START A BUSINESS

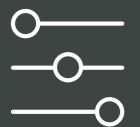

Invicta with multiple optional cutting tools, as well as creasing and debossing tools, is ideally suited for cutting a wide range of materials. Our proven mechanical design and easy to use software ensure a quick solution to time-consuming tasks.

CUTTING UP TO 20mm (3/4")

The Oscillating cutting knife will bring you to the next level. It will cut through many different materials from paper to rigid material or from fabric to leather. The Oscillating knife allows for cutting up to 20mm (3/4") deep.

COMPACT, VERSATILE AND EASY-TO-USE

Invicta comes in three different sizes, all with a vacuum table and pneumatic clamping system, a camera for print cropmark detection and operating software. The sturdy design of the machine allows you to cut precisely and efficiently, depending on the application. A bunch of optional tools are available for personalized customization.

Main Applications

- *Die-Cutting of Digital & Offset Prints*
- *Box and Packaging Production*
- *POP/POS Displays*
- *Street and Business Signages*
- *Offset Varnishing Plates*
- *Architectural and plastic models*
- *Decals and stickers*
- *Cardboard Honeycomb Furnitures*
- *Membrane keyboards*

Materials

- *Stretch Cardboard/ Corrugated Cardboard*
- *Vinyl and magnets*
- *Reflective films*
- *PVC, FOREX and Foamed*
- *Polymers and rubber*
- *Leather & Fabrics*
- *Paper Patterns*
- *Honeycomb panels*

**PRECISION, EASE OF USE AND
ENDLESS CREATIVE POSSIBILITIES**

Invicta can be customized into different configurations depending on the tools chosen and can cut materials with thicknesses up to 5 mm (3/16") with tangential cutting tool or 20 mm (3/4") with oscillating knife.

SINGLE
INTERCHANGEABLE
HEAD

In its standard configuration, **Invicta** is equipped with a vacuum table, divided into vacuum zones to optimise the suction when media is smaller than the working area. The machine is also provided with a new high-resolution optical system for crop marks detection on preprinted materials
