## A world of digital solutions with steady growing

**Digidelta Internacional Import Export, S.A.** Digidelta Internacional Import Export, S.A. presents solutions for the digital world since 1986, the year in which it was founded by the current CEO Rui Leitão. We count thousands of days focused on the mission of manufacturing and supplying high value integrated systems and will continue to add decades, customers, partners and employees.

The past solidifies our experience in the **visual communication, labelling and packaging, textile industry and industrial printing markets**. The present brings the products developed in the head office and manufacturing plant with more than 10.000m<sup>2</sup>, in Torres Novas.

### The future?

It will, certainly, be sustainable and promising. We have already reached **more than 60 countries** and want to go further.
